Record High Hit In Reader Sales Drive

Forty new subscribers' names were added to the growing list of readers of this newspaper this week.

The new ones, added to 5,215 who weekly read the Lemon Grove Review brings the new total to a record 5,255. The Review is a companion newspaper to the Spring Valley Bulletin. Both are published by the Homeland Publishing Co., the parent firm.

In Spring Valley, a circulation drive was just completed with the subscriber level reaching 4,205. A combination of 9,460 subscribers are listed for the two publications now.

In Lemon Grove, a portion of the income is given to Angels Unware, the east county day center for retarded children. The funds, turned over weekly to the group, are being used to purchase playground equipment.

Last week an anonymous contestant won a $25 prize from this newspaper and immediately asked to hand it over to the day center . . . which we did.

L.G. Sewer Tax Drops 6¢; Unchanged In S.V.

SAN DIEGO (CNS) — Lemon Grove sewer users will enjoy a drop of six cents to 31c in Sanitation District tax rates while Spring Valley users will pay the same 49c rate.

This was revealed earlier this week when a preliminary budget was adopted Monday by the directors of the two boards.

Hearings for the final budgets will be July 22 at 9:30 a.m. in the supervisors' chambers in S.D. County Civic Center.

Warren Barney, director of the special district services which operates both districts submitted a budget of $103,537 for Lemon Grove which represents 31c per $100 assessed valuation.

In Spring Valley the rate will be 49c, the same as it was last year. A budget of $215,660 for operation; $87,388 for retirement of 1956 bonds; $135,740 for 1962 sewer bonds, $60,900 for bond interest and $58,233 for operation of the 1962 facilities was submitted.

Property taxes of 49c will be required only for the operating fund and retirement of 1956 bonds.

The district will use $88,000 out of its operating budget to pay for connection to the Metro Sewer system. $50,000 for relocating sewer lines will be paid by the Division of Highways due to changes to accommodate the Beltline Freeway.

Demolition of the old treatment plant will cost $12,000.

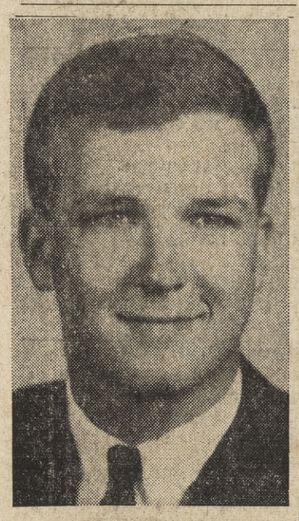
Little Chance Of 'Sudden' Bomb On SD Says CD Chief

William Marty, director of Civil Defense for San Diego County, told the Men's Club Friday that he had worked out a warning that would be used nationwide.



Steve Conrad
AF Academy

First asserting that war is "not likely—just possible," he said that there is a 75 per cent probability that the eastern half of the U.S. would suffer the first bombing because of the heavier concentration of war-making facilities there.

If San Diego suffered a bombing he said there would be only a 10 per cent chance that it would be classed as "sudden" or a warning of zero to four hours. There is a 60 per cent chance that it would be a "long" warning of from four to eight hours and a 30 per cent chance that it would be a "prolonged" warning which gives eight hours to three weeks to take cover.

In any event, Marty said, the new defense theory is to organize community by community.

A completely new awareness of defense needs will come when Red China explodes her first nuclear bomb, he added.

The Men's Club will hear Dave Speer, County Road Commissioner Friday. He will be accompanied by David Bird, supervisor of the district.

Scheduled for May 17 is State Treasurer Bert Betts.

All men of the community are invited to attend the meetings. They are held Fridays at noon at Michael's.

Youths Receive Appointments To US Academies

Three youth here were appointed to the United States Naval and Air Force Acadamies this week by U.S. representative Lionel Van Deerlin.

Thomas A. Sommers, son of Bee Sommers, 3754 Grove st., L.G. was appointed to the Naval Academy.

Steven V. Conrad, son of Mr. and Mrs. Walter F. Conrad, 2551 Mulder st., L.G. was appointed to the Air Force Acadamy at Colorado Springs.

Also appointed to the Air Force Academy was George N. Cobb, son of Mr. and Mrs. George P. Cobb, 3278 San Carlos dr., S.V.

The Cobb family now resides ies Wiesbaden, Germany, where George is attending the University of Maryland extension school.

The appointment of Thomas Sommers was made possible when the Navy Department informed Congressman Van Deerlin that his principal appointee Harold W. Hickman of Chula Vista, was also eligible for a Presidential appointment. This made possible the appointment of Thomas Sommers, who had been selected as the Congressman's number one alternate.

Manager Furloughed By L.G. Chamber of Commerce

To meet the economic pressure caused by the bank account showing a minus $70 balance, the Lemon Grove Chamber of Commerce this week put Chamber Manager Frosty Foster on leave of absence for sixty days.

Chamber President Sam Pernicano said "we simply ran out of funds and as it must be in business, we cut where we had to."

Foster was getting $70 a week expenses.

In other action at the Chamber's regular board meeting Tuesday, the group approved bringing a midget circus to town "after details are worked out by the executive committee;" approved the re-activation of junior chamber of commerce after hearing Warren Jeffs, state vice president of the junior chamber make a plea for the action, and agreed to sponsor a young lady in the Miss Southern California beauty contest to be held in Oceanside June 16.

Arrangements will be attempted to get one of the runners-up in the Fairest of the Fair contest which is being held Wednesday.

Floyd Tiderman heads the committee for the beauty contest. Hal Lenox heads the Jr. Chamber committee.

Later, it was announced that Chuck Buckles, operator of the Dairy Queen, would replace Lou Brouillard, hardware store operator, who tendered his resignation on orders of his physician.

High Stepping Band Brings Home Trophy

Lemon Grove's Junior High School Band returned the Marine Corps Recruit Depot Perpetual Trophy to this community for the third straight year in competition against junior and senior high school bands from Southern California.

The 95-member marching unit won the coveted award at the sixteenth annual Maytime Band Review in National City May 4.

Stepping into the competition zone with full band fanfare, Lemon Grove's students, in striking green and gold uniforms, swung into their "Glorious America" march by K. L. King. Over 200,000 spectators applauded the unit as it strutted over the mile and a half route.

Judges of the Southern California School Band and Orchestra Association rated Lemon Grove with its highest score to date, 93.35 points out of a possible 100. Harry Weisgerber, band director, said that judges commented very favorably on the marching unit's performance.

"Your school, community, and administration, as well as parents, should be proud of this group," stated adjudicators. The 84-unit parade had 46 bands competing in five classes. The Lemon Grove contingent pitted its efforts against 12 other junior high bands and eight senior high bands in Class A-4 division.

Sue Davis led the band in a twirling exhibition as drum majorette. She won a first place trophy for her performance, her first bid in competition. The 28-girl Pom Pon Corps won a second place with their well-received drill.

Accompanying the band and corps to National City were the 165 family members of the Lemon Grove Music Parents under the leadership of Melvin Woodward. Due to the efforts of parents, who kept the students' uniforms and instruments spotless prior to review time, the band received its highest inspection score.

The school band capped the day's efforts at award ceremonies with a half hour concert before 4,500 other parade participants.

L.G. 'Mayor' Runs For S.D. Mayor's Seat

San Diego Councilman Frank Curran who was made "Lemon Grove Chamber of Commerce's Mayor of San Diego" last week at the chamber installation, announced his candidacy for mayor this week "for real."

More than a month ago the Lemon Grove Rotary club elected him the "Rotary Club's Mayor of the City of San Diego" and gave him a certificate attesting to the fact.

It has been assumed for several months that Curran would enter the mayorality race.

The titles bestowed on Curran are strictly honorary since no part of Lemon Grove is within the boundaries of the City of San Diego.

Lambron Tells CC Investment Groups Are Today's Leaders

Because San Diego county lacks second and third generation millionaires to give financial leadership, investment groups must fill this void, Dr. Theodore Lambron, president of the $10 million Helix Land Co. told the Lemon Grove Chamber of Commerce Wednesday night last week at it's annual installation banquet.

Nearly 70 members and guests heard Dr. Lambron, a physician who turned his attention to investments less than six years ago and who is now getting ready to develop 800 acres at the ocean in Imperial Beach into a marina, tell how the first of his three investment groups started six years ago with $10,000 and how they now represent $10 million in investments today.

Dr. Lambron is a graduate of the University of Athens in Greece.

In the installation ceremony, Robert Vaught, retiring president gave Sam Pernicano, incoming president, a gavel. Vaught said that Broadway street lighting, the lemon refurbishing program, and the start of the residential street lighting program were all accomplishments during his year. Likewise, was the engaging of a manager, Frosty Foster.

Pernicano admonished the group to work harder for new members because of the continuing financial problem in the chamber.

The Chamber and the community are interwoven. A good chamber year will mean a better year for the local community, he said.

The affair was held at El Morocco.

Crazy Daze Sales Set

A Crazy May Daze sale event takes place in Lemon Grove May 16, 17, & 18. Merchants will wear outlandish costumes and hats decorated with the most outrageous trappings imaginable. A contest for the wildest getup will be determined by shopper's vote on the final day of the sale.

The sale promises fantastic bargain prices on all sorts of merchandise and services.

Street banners will proclaim the big event and special festivities are planned for the final day of the sale. Free baloons and gum will be dispensed to the children, and a donkey cart ride will entertain them.

All of Lemon Grove's residents and surrounding areas are invited to join the biggest bargain hunt ever staged in Lemon Grove.

Three Seniors Win Tuition Scholarships

The California State Scholarship Commission is proud to announce that three Monte Vista High School seniors have won scholarships.

Dave Morgan, Charles Spalding, and Gary Glaser were selected from approximately 16,000 applicants after undergoing a battery of aptitude tests plus meeting the standards of a total of eighteen semester A's and B's for their sophomore, junior, and senior years.

The award winners may receive the amount of the cost of tuition and fees up to a maximum of $900.

Of the 1,700 State Scholarship winners this year, all of them are within the highest two per cent of college aptitude.

Get Set For Mailbox Week

Mailbox Improvement Week is almost here.

When it comes to Lemon Grove and Spring Valley May 20-25 mailboxes on mounted city, rural, and star routes with delivery and collection service will receive attention.

In Spring Valley they'll get the attention of Postmaster Mildred Moran whose postal operation is newly escounced in a recently dedicated post office.

In Lemon Grove, Postmaster Francis Faucher is agitating for better boxes for postal service.

Patrons, the postmasters jointly said, are being encouraged to furnish mail receptacles which are convenient and safe to use, neat appearing, and protect the mail. Boxes that are properly erected and maintained contribute to efficient, speedy delivery of mail.

On mounted routes with curbline delivery, the box may be of the rural type or a model which will protect the mail from the weather. Where receptacles are not directly in front of residences, the patron's name and address must be shown on the box. Approaches to the mail box must be off the traveled road, and of solid surface to insure safety to the driver and vehicle. Boxes should be 36 to 42 inches from the roadbed. Abandoned boxes should be removed, and boxes are to be placed so that the carrier can service them without leaving the vehicle.

Let's Not Forget Mother Just Because It's 'Mother's Day'

Historians tell us things might have been drastically different in our country if it had not been for the influence of a few determined mothers.

Men like George Washington and Abe Lincoln, who helped shape America's early history, Thomas Edison who gave us the light bulb and many other inventions, and Henry Wadsworth Longfellow, whose poetry ranks with America's finest, are remembered for their greatness — but their mother's influence can be seen clearly.

Seeing the tears in his mother's eyes as he was about to leave on a British Man of War as a mid-shipman, Washington cried out "Mother, I cannot go and cause you so much grief." When the war ended Washington's first thoughts were of his mother. He sent a courier to her immediately with the news. And as he was elected president, he delayed the inauguration ceremonies in order that he might stop off at Ferry Farm, the fam-

He also enjoys "good" jazz, folk and concert music and guitar playing. Mikko explains his experiences in the United States this way:

When I heard I had been accepted as one of the exchange students from Finland to America in 1962-63, I knew that the coming year would be very important in my life, and full of learning about a new country and its people.

Even the program sponsoring me, American Field Service, could be considered as one feature of the international mind and care of the American people. Because of the international background of each citizen, this country has long roots leading around the world. I have found combinations of ideas of each nation on the globe: the music of the Ne-

GOD'S MINUTE

REV. H. C. BAKKEN

"CONFRONTED"

We pause to honor our Mothers. Another responsibility confronts us, that of the home. Jesus went from the Synagogue to the home. Thus it is with faith in Christ. It begins at the altar and flows out as a steady stream into society. The first place to be touched is our home.

CONRAD LEMON GROVE MORTUARY

NEWSPAPER GETS AWARD — Harry Weisgerber, retiring president of the Lemon Grove District Teachers Association, left, greets Max Goodwin, editor-publisher of the Lemon Grove Review after Goodwin is presented with plaque. Calvin J. Rossi, former All-American with UCLA and later teacher in the Long Beach high school, looks on. Rossi, principle speaker at the LGDTA installation banquet, is director of State and Federal Relations for the California Teachers Association, southern section.
Plaque was for "outstanding and consistent support of public schools in Lemon Grove" and award was made in the name of LGDTA.

Teacher Group Gives Plaque to LG Publisher

Max Goodwin, editor and publisher of the Lemon Grove Review, received a special recognition award Thursday evening at an installation dinner ceremony sponsored by the Lemon Grove District Teachers' Association.

Bronze Plaque

Harry Weisgerber, association president, presented Goodwin with a bronze plaque indicating the teachers' recognition of his consistent, constructive support of public education in this community. Approximately 200 teachers and guests witnessed the surprise presentation.

In making the award, Weisgerber stated that the community owes its good schools in part to Goodwin's philosophy of interpreting schools to his readers. "In the years since 1952, when you came to Lemon Grove," Weisgerber continued, "you have objectively and sincerely interpreted the schools, spelling out their needs, their achievement, and, at times, their shortcomings."

Editorial Policy

"Your general editorial policy has been constructive and consistent," Weisgerber added, "and this is a rare but most commendable combination."

Mrs. Faye Lantz, the association's public relations chairman, told a reporter this is the first special award ever given by the local CTA chapter. "But Mr. Goodwin has done so much for schools and youth of this community," she said, "that our teachers' executive board voted unanimously to recognize publicly his dedication to fair reporting and constructive editorials."

Installation

At the meeting James Dawson, San Miguel teacher, was installed as 1963-64 president. Also installed were: Ton Brogan, L.G. Jr. High, vice president; John Winterhouse, L.G. Jr. High, 2nd vice president; Barbara Brockhouse, Monterey Heights, secretary; Joan Wittrock, Vista La Mesa, treasurer, and Marge Godwin, San Altos, auditor.

Peg Lemmer, a teacher at L.G. Jr. High who is also a member of the board of directors of the California Teachers association, was mistress of ceremonies.

Calvin J. Rossi, director of State and Federal Relations for CTA, southern section, was guest speaker. He reminded the group that teachers associations this year mark their 100th birthdate. Rossi was All American in 1952 when he played with UCLA.

Demo Group Seen For S.V. Area

An informal gathering of forty democrats was held Saturday for forming a Democratic Club in the Spring Valley area.

William and Jane Roberts, 8118 Bramton pl., were hosts at the social attended by Assemblyman James R. Mills of S.D., Ray Rainwater and Armando Rodriguez, the latter two being unsuccessful candidates for the Assembly.

Mills told of his work in Sacramento and the need for precinct level work.

Rodriguez talked also of the need for a Democratic Club in the area and pointed out that not a single Democrat carried S.V. in the '62 election. Where no political club was active the Democrats suffered, he said.

Persons interested in becoming active in the Democratic Clubs should contact Bill Roberts, 8118 Bramton pl., S.V., or call 463-3127.

Tingle, Wade Nominated For Awards Program

Sari Wade and Nick Tingle of Monte Vista High School have been nominated for the annual Achievement Awards Program, sponsored by the National Council of Teachers of English.

For the sixth year the Council is conducting the Awards program throughout the nation to grant recognition to outstanding high school seniors for excellence in English. The writing abilities and literary awareness of each nominee will be judged by local and state committees.

NCTE will announce the finalists at its annual Thanksgiving convention, and will send their names to every US college and university with the recommendation that these students be considered for scholarship assistance.

Reports of finalists from previous years show that 99% of them attend colleges of their choice and more than 70% of the total students honored receive scholarship aid averaging almost $1,000 per year.

Founded in 1911, the NCTE is a professional, nonprofit organization of teachers of English at all levels.

WELFARE BUS TICKETS TRADED FOR LIQUOR SAYS DON KELLER

SAN DIEGO (CNS)—District Attorney Don Keller charged Tuesday before the County Board of Supervisors that some welfare recipients have been using books of bus tickets supplied by welfare to pay for their liquor bills.

Keller said that he was taking the matter to the County Grand Jury on Friday to see how many bus coupon pass books had been redeemed by the San Diego Transit System for cash.

Welfare Director Homer Detrich said that Keller had not consulted him on the problem.

"If he had," said Detrich, "I would have been most concerned."

The problem of bus coupon books redeemed for cash was brought to the welfare department's attention more than 15 months ago, said Detrich, but these cases had been individuals turning the books in for cash.

Keller suggested Tuesday that the coupon books should be stamped as not redeemable for cash, but Supervisor David W. Bird observed that the books could still be traded to friends for cash.

Keller appeared before the supervisors to seek support of a group of welfare bills that had been introduced in the assembly by Assemblyman Richard Donovan (R-77th District). He admitted the bills would probably not get to the floor of the legislature for vote.

Job Opportunities Abound At Hospital Says Grossmont Exec

"More than 200 job opportunities, ranging from accountant to x-ray technician, exist in hospitals today, but many jobs go unfilled because of personnel shortages," according to Leverett Bristol, Administrator of Grossmont Hospital and President of the Hospital Council of San Diego County. "This is particularly true in the paramedical areas, such as nursing, medical technology and occupational and physical therapy," said Bristol.

Recognizing this problem hospitals have adopted as their theme for Hospital Week—"Today's Hospital—Career Center for America's Youth." This situation will be highlighted as part of a nation-wide effort from May 12 to 18. Supplementing individual observances by hospitals throughout San Diego County the Hospital Council has purchased and is making available to all high schools in San Diego County a copy of a new handbook, "Careers in Hospitals."

WAILING DOG — Detective Sergeant Robert A. Ryan of the Sheriff's Office points to the new electronic siren now being used on patrol cars in the Valley-Grove area. Deputies have complained that many motorists, not accustomed to the siren's sound, fail to pull off the road.

'Code 3' Emergency Brings Help In A Hurry

By Curtiss Smith

At the Windmill Trailer park at Olive and North — an accidental poisoning.

The time is 12:35 a.m. In eight minutes the victim of this accidental poisoning will be in the emergency room at Grossmont hospital.

Station M is the sheriff's radio.

Unit 408 is the call number assigned to a L.G. patrol car.

Code Three is the designation for use of red lights and siren.

The purpose of this story is to inform readers of an important local police function and to advise motorists what to do upon being confronted by the red light and siren of an emergency vehicle.

In the Code Three call last week, a man, Frank McManus, 64, had consumed 2 ozs. of camphor oil, mistaking it for castor oil. Camphor oil is lethal in five to ninety minutes.

Arrives In Two Minutes

Deputy E. J. Redman received the call at 12:35, was at the scene at 12:37. At 12:43 the victim was recovering.

Code Threes are used only in emergencies such as an attempted suicide, a no-detail accident, a serious-injury accident, or when peace officers' presence might preserve or save a life or prevent bodily harm.

In some instances a minute makes the difference between life and death so these officers work with speed and efficency.

Any time you see the red lights and hear the siren of an emergency vehicle, pull over to the curb or side of the roadway and wait until the emergency vehicle has passed. In no instance should you stop in an intersection. If you are on foot stay out of the road until the vehicle has passed.

Vehicles going Code Three have the right of way at all times. Failure to yield can cost the life of the Code Three vehicle driver, your own, and possibly the person who faces the emergency by which the Code Three call was triggered.

If you fail to yield you may face criminal action.

Wailing Dog Siren New To LG Motorists

If you have heard some strange sounding noises up and down the avenue and have happened to notice a Sheriff's patrol car speeding along with its red lights on then what you heard was probably the new electronic siren recently put into use by the Sheriff's Office.

The new siren has three sounds ranging from almost the standard up and down wail to something that sounds like some great dog yelping.

The new siren is supposed to be easier for the hard of hearing to hear because of the vibrations it sets up and also that it remain very loud at all times, as opposed to the standard siren that was often at the lowest volume when the emergency vehicle was entering an intersection.

Some of the deputies like the new siren and some don't. Those opposed say that the main drawback is that people don't know what it is and do not respond as they do with the old one.

The deputies that like the new siren agree with this but feel that as soon as the public becomes accustomed to it, it will be better for all concerned.

To point up this fact Detective sergeant Robert A. Ryan demonstrated the different sounds emitted by the new device in about two or three second intervals and to the average ear it certainly seems like an attention getter.

So if you hear something loud that sounds like maybe a flying saucer landing or some other inexplicable sound, look around it's probably a Sheriff's Patrol car responding to an emergency call.

groes, architectural elements from Arabia, food from China, textile figures from India, and, for my delight, even the Finnish Sauna-bath.

The first impression to me, like many others who visit this country, was the "Big America — everything biggest in the world." But I have found the small America, too, on which the whole system rests. I realize now that the big cities, magnificent highways, and the richness of material goods are an expression of something deeper in a progressive people, whose basic ideas, capitalism and pragmatism, mean better living — for all.

I have learned that the "take it-easy-way" is not ignoring responsibilities or overlooking facts, but bringing fun into situations where it helps to refresh and reduce the overwhelming burden of present-day life.

A very valuable experience for me has been by year in Mount Miguel High School. This has given me a chance to penetrate into America's everyday life. Many friends who have opened their homes have helped me to obtain a closer look into family life. Here I have had a clear-cut look into society, and into its different groups and various attitudes. My courses in civics and U.S. History have helped me to better understand the principles behind this American system of democracy.

All I have written so far sounds very good, and I consider it so, too. But it is natural that not everything can be good, and we exchange students have to try to be fair about these things also. Everybody has been friendly to me, but I have noticed that some amount of prejudice does exist. I am sorry to say. Together with this, there often appears general opposition to authorities such as parents, school, etc. It is a common human mistake first to define and then to look.

But the American people are happy people; they have their enjoyments and they live in freedom — only limited by the society. This year has been great; I have learned more than I can say. I am sincerely grateful to AFS, to my adopted community, Lemon Grove, to my school and to my foster family, the Harold Wolfarths.

ily home to see his mother. As it turned out, it was the last time he was to see her alive.

After becoming president Abe Lincoln said of his mother, "All I am, or ever hope to be, I owe to my angel mother." At the age of 9 he stood by her deathbed as she voiced her last request: "Be something, Abe."

The genius of Thomas Alva Edison was nurtured by his mother. Edison was once quoted as saying "My mother was the making of me. She was so true and sure of me, I felt that I had someone to live for — someone I must not disappoint."

Longfellow showed his feelings toward motherhood when he advocated that a man's last thoughts before his death should be of his mother. He said "Even He who died upon the Cross in the last hour, in the unutterable agony of death, was mindful of his Mother, as if to teach us that his holy line should be our last worldly thoughts — the last point on earth from which the soul should take its flight from Heaven.

From other lands come a re-echoing of similar thoughts.

Sir Edwin Arnold, a 19th Century British poet penned the universally famous "God could not be everywhere and therefore he made mothers."

Joaquin Miller, "The Bravest Battle"

The bravest battle that ever was fought
Shall I tell you where and when
On maps of world you'll find it not
It was fought by mothers of men

Emerson: "Men are what their mothers make them." .....

William Ross Wallace: "The hand that rocks the cradle is the hand that rules the world."

Kate Douglas Wiggin: Most of the beautiful things in life come by twos, threes, dozens and hundreds. Plenty of roses, stars, picnics, sonnets, brothers, sisters, aunts and cousins, but only one mother in all the wide world."

No matter how we say it, the message will have that loving thought "I love you Mom" even though some of us will say: "Sunday is Mother's Day, Mom. Try and get your work caught up early so you can celebrate it with us."

Home Owners' Bill of Rights

At a real estate board meeting recently in La Mesa the speaker took a good look at what's happening to home owners in the country.

"They're losing their constitutional rights," he said.

In a manner similar to the way business firms have had to knuckle down to the determinations of Washington's Whiz Kids, homeowners now find they have become equally subservient, although the encroachment is far more insidious, he asserted.

The speaker, who should be heeded because he is Spike Wilson, president of the California Real Estate Assn., offered a Homeowners' Bill of Rights based on the rights and freedoms once guaranteed by the Constitution.

The speaker led off by quoting the Chief Justice of the U.S. Supreme Court who had urged retention of "government of laws in preference to a government of men."

Then on to some 10 points of protection homeowners and property owners must demand to make their rights fit within the framework of the Constitution:

Right of privacy.

Right to own, operate, administer and dispose of property without legal interference.

Equal rights to enjoy property without interference by laws giving special privileges to any groups.

Right to maintain congenial surroundings for tenants.

Right to determine acceptability and desirability of prospective buyer of his property.

Right of senior citizens and other Americans to choose congenial tenants to maintain stability and security of their income. These property owners should not be obligated to require their tenants to accept each other indiscriminately, giving rise to inter-group relations by coercion of law.

Right to enjoy the freedom to embrace, reject, deal or not deal with others.

What the speaking was asking for seems to me to be only a return to the concepts by which we once were recognized as a free nation.

The speaker, as well as other sincere Americans, feels that control of private property by fiat must cease.

Spike Wilson is speaker May 15 at the California Realtors Association meeting at El Cortez hotel.

connection fees and a carryover surplus will help reduce the tax although operation cost is about $1,800 higher than last year. A savings of $10,000 will come from reduced uosts when Lemon Grove's mains are connected to the Metro Sewer system.

In the Lemon Grove district, administration costs will rise $3,500 and in Spring Valley they will rise $13,000 to help pay $21,500 salaries of the supervisors who are now district directors.

Deplores Alabama Killing

Dear Editor,

The recent **kneel-ins** at at churches in Birmingham, Ala., the denial of civil rights, and the tragic death of William Moore concern us very deeply.

We deplore the fact that some churches turned away Negro worshippers in Birmingham on Easter Sundty, but we are disturbed that the same attention was not given when they were admitted to many of these same churches the Sunday after Easter. We also wish to emphasize that all United Presbyterian Churches in our country welcome everyone regardless of race, national origin or creed. We accept all who place their faith in Jesus Christ as Lord and Saviour as communicant members. Our church is committed to work for a nonsegregated church in a nonsegregated society.

We deeply regret the death of William Moore, the Maryland postman who gave his vacation and his life for democracy. We feel that the ciolent hand which murdered him was released by the prejudice, malice and hatred that exist in human hearts in San Diego as well as Alabama. According to the New Testament, a man who hates his brother is a murderer, therefore we call upon all the leaders of our community to work toward the elimination of this threat to our society, racial discrimination.

We would also point out that we do not bar from membership those who may harbor the sin of prejudice within their hearts, and therefore, we call upon those of other races to be forgiving of these persons in our churches as they themselves have found forgiveness in Christ. We are dedicated to the purpose of Jesus Christ who came to break down every dividing wall of hostility. (Ephesians 2)

Very sincerely,
Presbyterian Ministers Association, San Diego County

WILL VANDALISM STOP?

Dear Editor:

We feel very bad about the vandalism and damage that has ossured at the Lemon Grove Greenspot Park, and wonder what can be done to stop it.

Many organizations and interested citizens have been working for three years (or more) to acquire this park. It was felt that a park would enhance the charm and beauty of Lemon Grove, provide a place of recreation for the youth, and a meeting place of respite for others.

The County Park and Recreation Department wanted to know if this park was desired by the entire community. To show the County Park department that the community was behind the park, many groups and citizens have worked to raise money to purchase and donate large pieces of play equipment for the youth, to provide shuffleboard courts and shade under trees for the park.

We wonder if this work and interest is all in vain for if the people will not take proper care of the few things installed, the park will be destroyed by vandalism before its actual completion. Won't the people of this community ban together to see that what park we have is preserved? We feel that the park will, in time, help pass many enjoyable hours for the residents of Lemon Grove.

A possible solution to stop the vandalism and mischievious youngsters, would be for directed play activities, a patrol going around after darkness or the early completion of the park. If the area really looked like a play area, possibly there would be a pride developed for our park and more people would go over to enjoy it and thereby stop some of the vandalism.

We want this park for all of the residents of our community and for our own youngsters and families, so we do hope the others who want this park will help work toward it's completion and to also take an interest in seeing that it is protected.

Property Tax Boost Seen as County Budget Study Opens

SAN DIEGO (CNS) — The first round in a long wrestling match with a record-setting county budget opened Wednesday with the Board of Supervisors facing the possibility of another property tax rate increase.

T. M. Heggland, chief administrative officer, presented the budget on Monday that totalled $96,747,083 and said that the current $2.14 tax rate probably could not be preserved.

Increased needs for public assistance due to a high level of unemployment, opening of new county facilities and a smaller surplus estimated for the beginning of the next fiscal year were cited as the reasons for an increase of $4,861,677 over last year's budget.

Heggland said that revenues from sources other than property taxes were expected to increase considerably, especially in the welfare field to help offset rising public assistance costs, but he described financing of the coming year's budget as "severe" and cautioned that a tax increase might be necessary.

Salary increases, still to be decided by the supervisors, could require a good portion of the increase.

Heggland also separated some $343,050 worth of items from the budget that he described as "policy" matters for the supervisors to decide. These include requests from county Chambers of Commerce for assistance, requests from other agencies for "advertising county resources" and museums and zoos. Largest of these requests comes from the San Diego Tourist and Convention Bureau asking for $125,000, which is the amount budgeted for the current year.

Motorcyclists Ready For Action on El Cajon Track

Jack Simmons, Eddie Mulder and Zob Bailey will be among the favorites when motorcycle riders from the American Motorcycle Association return to action Friday night at Cajon Speedway in El Cajon.

First race is underway at 8 p.m. following practice laps.

Simmons, of Artesia, started in the front row and went on to win last Friday's open professional main event. Mulder, who had won the feature race or three previous race programs here, settled for second.

The 19-year-old Mulder, from Burbank, got a big break in the 15-lap main when Skip Van Leeuwan, a nationally ranked rider, and Dusty Coppage spilled on the final lap. Van Leeuwan and Coppage were running a tight second and third when they lost control on the north turn in the hotly contested event.

Down Twice

Bailey, another consistent performer here, went down twice earlier in the race before dropping out. The Torrance rider, defending point champion here, had finished in the top three previous appearances.

The lightweight professional main event was also a hotly contested affair with Johnny Apple of Imperial Beach once again emerging as the winner. Bruce Sanford of San Diego finished second and Dusty Coppage was third.

Ron Lacher of San Diego won the sporting lightweight main event for amateur riders.

Sporting main (8-laps)—Ron Lacher, San Diego; Ron Foley, Escondido; Bill Evans, San Diego; Bob Krause, San Diego.

June is Dairy Month and, as an early preview, "Along the Milky Way" will be the theme for our cooking schools this month. There are many fine dairy product recipes we want to tell you about.

Our guest speaker will be Mrs. Jo Ann Hill of the San Diego Dairy Advisory Council. She will discuss how your family can benefit from the high nutrition value of dairy products through imaginative dairy meals.

Typical recipes we will do will be those using milk, cheese, and sour cream. For a new breakfast treat, we'll prepare a yeast coffee cake made with sour cream. We'll make a "Cheese Log" appetizer . . . truly a tasty new dip. And the delicious desserts we'll do include a new quick baked Pineapple Alaska, Ice Cream Salad and crisp cookies made with sour cream.

Join us, won't you, on Tuesday, May 14, from 12:30 to 2:00 p.m. or on Tuesday, May 28, when the same program will be presented from 10 to 11:30 a.m. There will be free door prizes, and of course, admission is free. The location: the comfortable air conditioned auditorium of San Diego Gas & Electric Company's Eastern District Office, at 104 North Johnson Street, El Cajon.

King's Sixth Graders Dribble For Sport

Sixth grade students at Highlands Elementary School don't mind the nippy wind on some of our chilly day. Mr. Stanley King, sixth grade teacher, has made sure of this with instruction in soccer.

Born in London, and a recent citizen of the United States, Mr. King played the game during his days at boarding school, and again when he served with the British army.

"During cold days the children need vigorous activity — not like kickball where half stand around waiting their turn to kick or field the ball. This game keeps them on the move," said Mr. King. Not all the rules have been necessary for these sixth graders, he said, but they surely know how to "dribble" the ball and pass it to teammates. Dribbling is getting the ball around an opponent without losing control.

Jon Sarkela summed up the feelings of the class when he said, "I like baseball (he plays Little League) but I sure like soccer, too. It takes a lot of skill, and I've never played a game like it before."

SWIMMERS, WINNERS — Randy Smith, far left, and Diane Hood, center, were winners for the second consecutive year of the Santa Barbara Swim at the Carman Ranch Club. Randy won in the men's division by swimming a total distance of 37.1 miles, and Diane won the women's title by swimming 21.6 miles. Terry Kyte, far right, tied with Randy in the longest distance in one day — they swam 10 miles.

Carman Ranch Members Splash 609 Pool Miles

The third annual Santa Barbara Swim at the Carman Ranch Club reached a successful conclusion recently with presentation of awards at a pot luck supper.

Trophy Winners

Overall winners were Randy Smith, 37.1 miles, and Diane Hood, 21.6 miles. They have won the first place trophies for two consecutive years.

Terry Kyte and Randy Smith tied in the longest swim in one day event. Both boys swam 10 miles each.

Donovan's Drive For Vet's Hospital Gains

Assemblyman Richard J. Donovan's resolution urging the President and Congress to establish a veteran's hospital in San Diego passed its first test in the Assembly this week. The resolution enumerates the many features of San Diego which make it a desirable site for convalescents and points out that there are great numbers of veterans of all branches residing here.

Area Congressmen have proposed that a veteran's hospital of 500 to 1,000 beds be located in San Diego adjacent to the new La Jolla campus on U. of Cal. A medical center is to be established at the campus, and highly skilled medical personnel would be available to the veteran's hospital if it were nearby.

Donovan's resolution will be carried through the Senate where a simple majority is required to pass it. The Governor's signature is not required.

Lively Elected District Leader

Two years in existence and two years in succession the Monte Vista High School Key Club has had the honor of having the Lieutenant Governor of District 31 among its members.

Tom Lively, a junior, succeeded fellow junior George Gray as Lieutenant Governor at the annual Key Club Convention April 8 at Pernicanos in La Jolla. The candidates spoke to the different Key Club representatives in their districts and from their qualification speeches, Lively was elected.

The Mission Bay Key Club played host to the numerous clubs and the speakers who orated on duty to God, country, community, family, and themselves.

Van Deerlin Asks More Beds For Naval Hospital

Enlargement of its bed allocation in San Diego's Naval Hospital has been requested by the Veterans Administration, it was disclosed by Rep. Lionel Van Deerlin (D-San Diego).

Addressing a civic breakfast in the Crystal Room of the U.S. Grant Hotel, Van Deerlin also predicted early action on construction of a 1,000 bed Veterans Hospital here.

"I have been assured that the House Committee on Veterans Affairs will report favorably on our need for the facility," the Congressman said. "And I have written President Kennedy, with copies to other Administration officials, asking them to reconsider earlier assessments of our need."

In June of last year, VA Director, John S. Gleason, Jr., reported unfavorably on San Diego's eligibility for a hospital.

Van Deerlin said his own personal findings indicate the need of not fewer than 1,000 beds in a projected VA hospital.

"A 500 bed facility could be filled at once," he commented. "Assuming that authorization and construction of the hospital will span at least five years, we can see that 1,000 beds would be no more than logical planning."

The poor man must walk to get meat for his stomach, the rich man to get a stomach to his meat.
